

NEW COST EFFECTIVE SIMPLE INSTALLATION

BENEFIT :

No Cumbersome accessories needed.
You can fabricate on-site using basic components only.
Reduce labour & Installation cost.

Making an on-site Horizontal Bend

1. Cut side rail at external radius right through
2. Cut side rail at inside radius at top & bottom flange only
3. Bend ECOTRAY to the desired radius
4. Shape and fit the radius plate to the external edge
5. Bolt the radius plate with ECOTRAY nuts & bolts

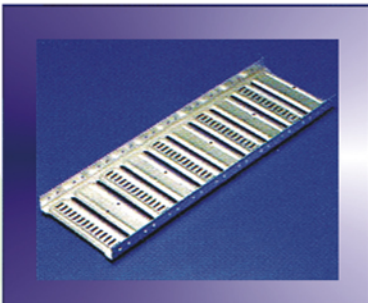

Making an on-site External Riser

1. Cut side rail through edges leaving the bottom flange intact
2. Fit link plates and ECOTRAY nuts & bolts

Making an on-site Internal Riser

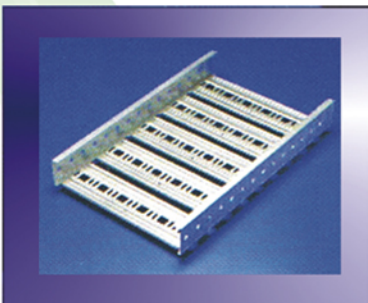

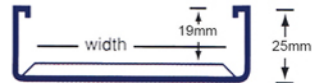

1. Cut side rail at external radius right through
2. Fit link plates and ECOTRAY nuts & bolts

ECOTRAY Cable Support System

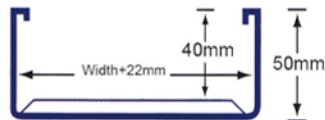

ECOT25 Series

Width	Part Number
100	ECOT25-SL-100
150	ECOT25-SL-150
225	ECOT25-SL-225
300	ECOT25-SL-300

ECOT50 Series

Width	Part Number
100	ECOT50-SL-100
150	ECOT50-SL-150
225	ECOT50-SL-225
300	ECOT50-SL-300
